Lightning Fast OCR

The PEARL expands the features of WYNN™ 6.0 to provide instant OCR. Press a keystroke to snap a picture, and hear your book read back to you with one of the Real-Speak Solo Direct® voices. You control the reading rate and voice.

Automatic Page Capture

In automatic mode, the PEARL senses motion, so it knows to snap an image whenever you turn a page. Place your paperback novel sideways, and the PEARL will snap two pages at a time and maintain the pagination. For larger books, you can capture even pages first, and then flip the book over to capture the odd pages.
